

# Smart City - versus - Smart Society

City provides Data

Society to use information

Goal is to change behavior

## Challenges

- Access to information
  - Accurate, complete, profile
- Privacy / vulnerability risk
- Education / knowledge / skills
- Equal rights
  - The right to be forgotten (?)

## Economic opportunity

- Personalized services
- Complementary services
- Digital skills development
- Information processing
- City data driven services

## Europe

- Digital sovereignty
- Cyber security
- Consistency
- Network access
- CitiVerse / MIM's
